

Photovoice is a method and a technique that highlights a certain moment or place of interest visually. It only requires a phone or camera and it works perfectly as a tool for capturing elements which you want to use for later in your work or presentation.

Your assignment is to take a photo whenever you see something you want to highlight. Together we create a database of pictures and videos by:

Using the hashtag **#charrette2019** and using the tags **@keaglobal**
